GRINGOTTS™ WIZARDING BANK

At the far end of Diagon Alley™ when you enter from the secret passageway in The Leaky Cauldron, Gringotts™ Wizarding Bank may not be the first magical building you see. It is, however, one of the most spectacular. Behind its crooked columns and walls, the bank's loyal goblin staff guard the greatest fortunes and most powerful artefacts owned by all of Britain's witches and wizards. In the words of Hagrid™, 'Ain't no safer place, not one. 'Cept perhaps Hogwarts™'.

It is here Harry Potter™ first discovers his family fortune and where he, Ron and Hermione later break into Bellatrix Lestrange's vault to find a Horcrux (only to discover this is definitely not a safe place for intruders), and finally make their daring escape on a dragon, leaving the noble old bank in shambles.

THE VAULTS

Vaults, located in caves stretching deep underground, are protected by powerful incantations, guards, trolls and a dragon. To open a vault, its owner must first pass rigorous security checks and be escorted by a bank employee. Some vault doors can be opened with a key, others require intricate unlocking mechanisms and spells.

DESIGNING THE MODEL

'This is the tallest LEGO® Harry Potter™ set we have released so far. The design process began with a tiny version that was maybe around 1:8 scale of the final set, built in about 5 minutes! We then developed a slightly larger version and finally a full-size sketch model.

Of course, we wanted to recreate the bank as it's seen from street level; however, as much of the action at Gringotts™ Bank happens in the caverns below (where a complex network of vault cart tracks provides access to all the vaults), we included this section, too. These sections can be stacked on top of each other to create a jaw-droppingly tall slice of Diagon Alley™ that can be displayed as one piece, as two separate modular builds... or three if you let the Ukrainian Ironbelly dragon fly off the roof!'

George Gilliatt and Justin Ramsden, LEGO® Model Designers

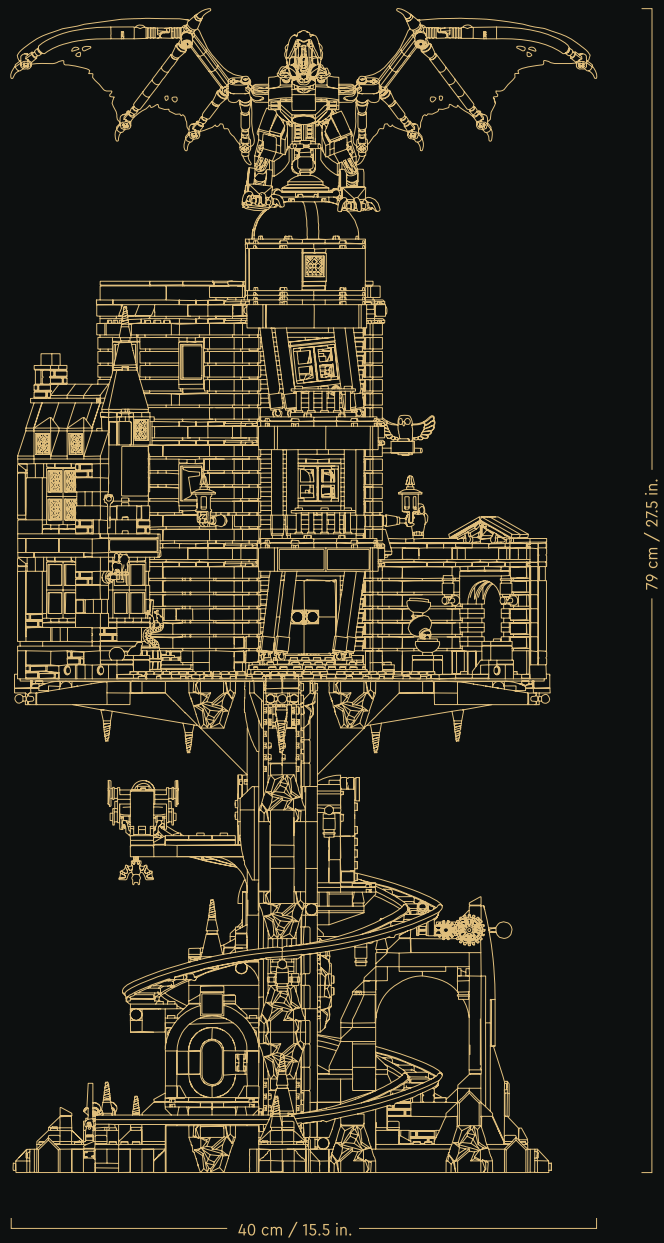

A TOUR OF THE BANK – guided by its Muggle™ Designers

'We carefully studied the LEGO® Diagon Alley™ set (75978) and made sure that if fans want to combine the sets, the buildings can connect and blend naturally together because of tiny details, such as the lamps hanging off the side of the building and the inclusion of the Magical Menagerie in a building adjacent to the bank. The caverns were tricky to design. The model had to be incredibly strong and stable whilst also looking adequately "rickety" to mimic the perilous vault cart ride through the caverns and The Thief's Downfall in *Harry Potter and The Deathly Hallows™: Part 2*. We explored different directions and worked with our model coach, Monika Bukhave Fruergaard, to make sure it could support the weight of the street-level modular building as well. We included the three vaults that are visited throughout the films: Vault 713 with the Philosopher's Stone™, the Potter Family vault, and Bellatrix Lestrange's vault with Helga Hufflepuff's golden cup. (As mere Muggles™, we couldn't cast an actual Gemino Curse on the cup, but, well... try to steal it and you'll see!)'

George Gilliatt and Justin Ramsden, LEGO® Model Designers

GRINGOTTS BANK

DESIGNED WITH CARE FOR MAGICAL BEINGS

'I worked on lots of the detailed decorations, such as the beautiful marble pillars inside the bank foyer, and the stickers that feature many secrets and awesome details we know LEGO® Harry Potter™ fans will love. My favourite parts to work on were all the intricate signs and blackboards included throughout the set. We designed all the minifigures to capture their personalities and signature looks so fans can recreate their favourite Gringotts™ scenes. We hope you'll have fun discovering all the magical details in the set, both brick-built and in its decorations! As Griphook said, "There are more than a few curious things in the vaults of Gringotts™."'

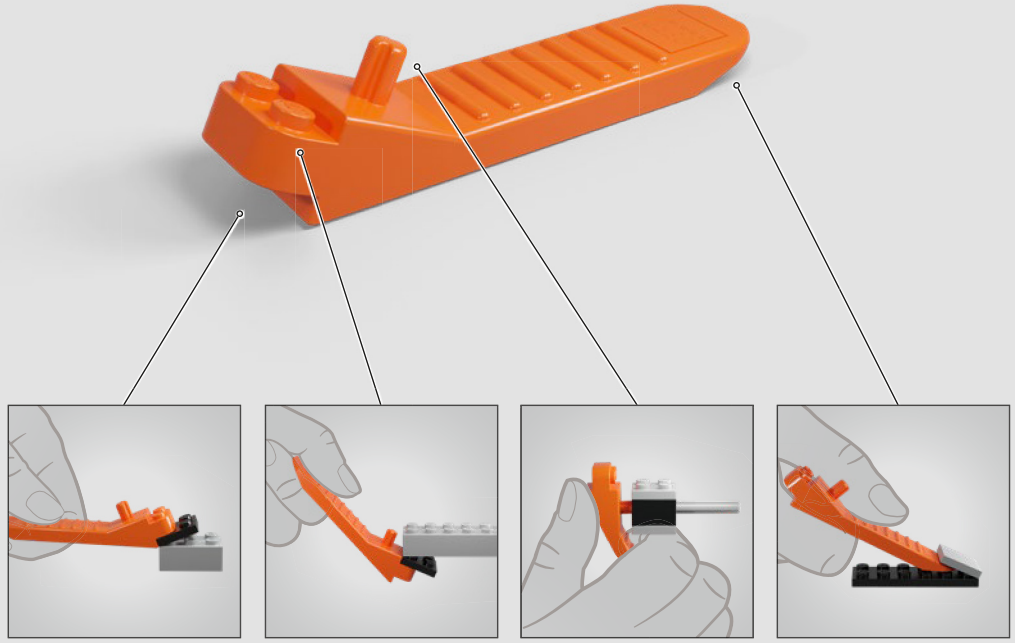

Peter Kjærgaard, LEGO® Graphic Designer

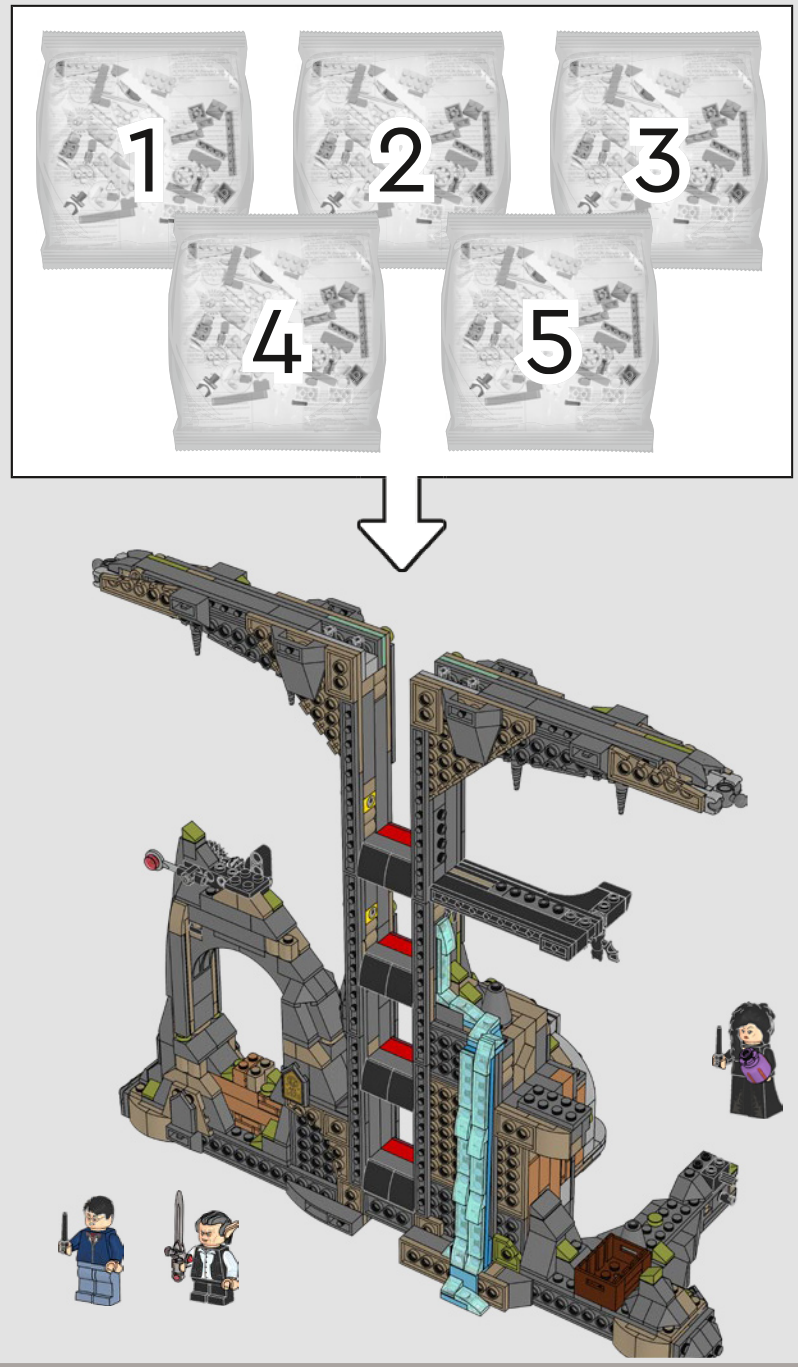

EXPAND YOUR DIAGON ALLEY™ SET

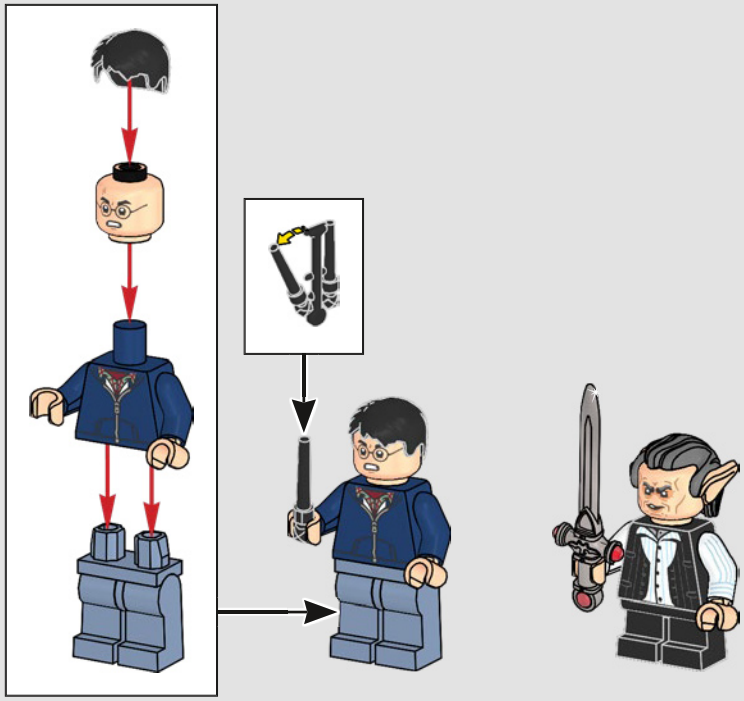

'Gringotts™ Wizarding Bank is arguably the most iconic building in Diagon Alley™. It was a notable exclusion from our LEGO® Diagon Alley™ set (75978) in 2020, and we know how requested this building is amongst LEGO Harry Potter™ fans. It's such a unique location and the design team really wanted to do it justice and include not only the bank itself with its twisted facade but the vaults and the Ukrainian Ironbelly dragon too, allowing fans to display different key moments from the films.'

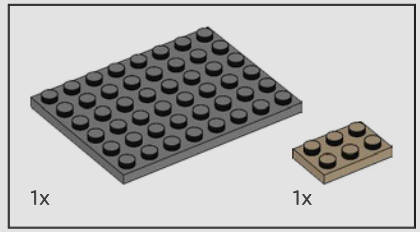

Andrew Seenan, LEGO® Harry Potter™ Creative Lead

In the Wizarding World, Gringotts™ Bank was established in 1474 by a Goblin named Gringott. It was created in response to the 14th Century Wizarding Economic Bubble, which unfortunately burst due to the Soap Blizzard of 1378.

The first LEGO® Gringotts™ Bank featured some iconic details that we love. The vault was capped off with a bat sitting on a sand green jumper plate and, you'll be pleased to hear, that bat is still around today, making its nest on the top floor of the Magical Menagerie. How many other details from the first Gringotts™ Bank can you find in this model?

When placed on top of the caverns, this baseplate is 33 cm (13 in.) off the ground! This is not the first time a LEGO® baseplate has been raised (the first was in 2003 – LEGO Sports Snowboarder Boarder Cross Race 3538), however it is the highest!

HOW TO HOLD AND SEPARATE THE MODEL

The safest way to keep both the bank and all its occupants secure is to separate the bank on its baseplate from the vault section first and make sure you lift with both hands, supporting each module from the base.

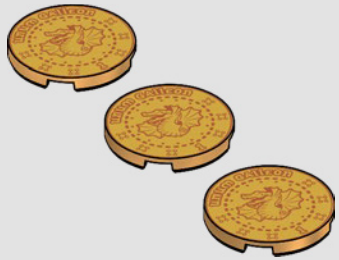

GRINGOT TS BANK
